

# HARVIA HPOE

HPOE704

*Harvia Legend electric sauna heater, now in a new size, continues the Finnish sauna tradition and the story of unwavering Harvia quality! The compact Legend electric sauna heater brings the soft steam baths into small family saunas.*

## Advantages

- The tall Harvia Legend model E pillar heater, thanks to the large amount of stones, guarantees a pleasant sauna experience, and it can be operated with a separate control unit. Harvia's control units enable you to create the perfect sauna experience
- Harvia Legend's model E electric sauna heater can be operated with a control unit, such as Harvia Xenio CX170 WiFi unit, either from your phone or with the C170VKK control unit, by means of a range of weekly schedules. Select a control unit that suits your sauna best. The model E electric heaters are reliable, durable and suitable for home and professional use.
- Harvia's new heating element tunnel solution, with the elements separated into their own space within the stone space, ensures quick heating time and steady heat in the sauna. The heating element tunnel also enables a more relaxing and quieter steam bath with an even temperature, but it can also provide a properly hot steam bath if you like.
- Protect the benches and structures with a separate Legend protective sheath. Thanks to the protective sheath, the Legend electric sauna heater can be installed in a smaller space. In very small saunas, the protective sheaths also ensure safe sauna use. You can select the sheath that suits you best, as you can install more than one of them. For a corner installation, we recommend one protective sheath. Two protective sheaths are recommended if the benches are on both sides of the heater.
- To ensure safe movement in the sauna, you can get a sturdy Legend railing as an accessory. You can also install more than one safety railing, making it safer to move about in an open space.

## Features

Main material : Steel

H x W x D : 1080.0 x 325.0 x 325.0 mm

Net weight (kg) : 18.0

Installation type : Floor

ID	GTIN	Output (kW)	Sauna room size min - max m <sup>3</sup>

## Technical details

Technical data	Type / attribute	HPOE704
	Color	Black
	Power output	6.8 kW
	Stone sizes	5-10 cm
	Stone amount (kg)	100
Dimensions	Product width (mm)	325
	Product height (mm)	1080
	Product depth (mm)	325
	Net weight (kg)	18
	Gross weight	19.35
	Package width	330
	Package height	1060
	Package depth	330
Safety and installation dimensions	Safety distance front (non-combustible materials)	100
	Safety distance front (combustible materials)	100
	Safety distance right side (combustible materials)	100
	Safety distance right side non-combustible materials	100
	Safety distance left side (combustible materials)	100
	Safety distance left side non-combustible materials	100
	Safety distance side (non-combustible materials)	100
	Safety distance side (combustible materials)	100
	Safety distance behind (non-combustible materials)	100
	Safety distance behind (combustible materials)	100
	Safety distance (Ceiling) (depends on connections and therefore from output, star/delta)	840
	Room min. height (depends on connections and therefore from output, star/delta)	1900
	Installation opening height	1900
	Installation opening width	525
Installation opening depth	525
