

The Warmup MSTAT is a manual thermostat with ON/OFF switch and dial for easy temperature regulation.

Simply set your desired temperature and then switch the heating on as and when you need it.

Features:

- Simple regulation (ON/OFF)
- MSTAT depth allows flush mounting in standard socket
- Temperature regulation from 5° to 40°C
- Floor probe ensures precise control of temperature

Technical Data

- Supply voltage: 220 - 240V, 50Hz
- Max output : 14A
- Built-in interrupter: 1-pole, 16A
- Temperature range: 0 / +40 °C
- On/off differential: 0.4 °C
- Sensor type: NTC, 3 m
- Dimensions (H/W/D): 80 x 80 x 50 mm
- IP rating: IP 20
- Approvals: BEAB
- 3-Year Warranty
