Conservation or service wine cabinet

- + Capacity: 161 bottles*
- + Free standing and built-under installation
- + Design: black body & stainless steel door frame
- + Cooling system: compressor
- + Type of cold: air moving system
- + Adjustable temperature ranges of use:
 - upper part: 5-10°C
 - lower part: 10-18°C
- + Electronic regulation
- + Thermometer with blue electronic display
- + Blue LED lights with switch button
- + 1 glass door, anti-UV treated, 2-layers tempered glass (tinted) with lock

*This appliance enables you to **bring your bottles at room temperatures** or **bring them to service temperature** (depending on the bottles). Take full advantage of the space offered by this wine cellar to cool also your **champagne bottles**.*

*Thanks to the **demo mode**, reduce the energy consumption of your appliance. Only display and LED lights are active, ideal for expositions or fairs for example!*

Eco-responsibility

Our products are manufactured in compliance with European environmental rules. Especially, refrigerant fluid (R600a) doesn't reject neither CFC nor HFC and respect environment.

Energy consumption is calculated based on the result obtained for 24h in standard test conditions. The actual energy consumption depends on the conditions of use and location of the device.

This equipment is designed to be used in an ambient temperature between 10-32°C.

This appliance is intended to be used exclusively for the storage of wine.

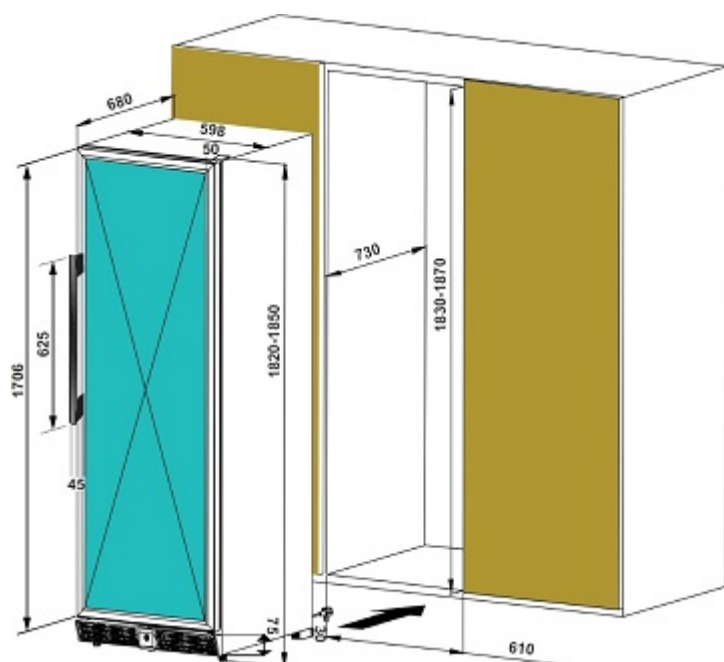

Alcohol abuse is dangerous for health, please consume in moderation.

*Capacity given as an indication with 75cl Bordeaux traditional type bottles and measured with 13 shelves. Adding shelves reduce considerably the total capacity.
